Remedial Investigation/Feasibility Study

Dear Ed:

BCM Eastern Inc. (BCM) has been authorized by Mr. Joseph Blosinski to monitor site activities of the U.S. Environmental Protection Agency's (USEPA) contractor during the course of the Remedial Investigation/Feasibility Study at the Blosinski Landfill. A BCM representative will be onsite to observe field activities and split selected soil and water samples. Additionally, we request that copies of field data, laboratory data, and office reduced data be made available to us.

Either I or another BCM representative will be onsite on Friday, October 5, 1984. At that time, or if you will not be available then, by next Monday, October 8, we would like a copy of the anticipated field activity schedule in order to schedule our personnel.

If you have any questions, please call me directly.

Very truly yours,

Alan M. Robinson
